**Note to Editors: The Group's revenue is largely derived from project-oriented businesses and as such, quarterly results would not accurately reflect the full-year performance. Full-year to full-year comparisons are more appropriate for analytical purposes.**

### 2Q FY2019/1H FY2019 Highlights:

- Total revenue for 2Q FY2019 and 1H FY2019 increased 13% and 15% year-on-year to S\$118.4 million and S\$225.4 million respectively.
- Total profit and net profit for 2Q FY2019 decreased 10% and 3% year-on-year to S\$11.2 million and S\$6.9 million respectively, mainly due to higher overhead expenses and share of losses of associated companies and joint ventures, which outpaced the improvements in gross profit, other income and other losses.
- Total profit and net profit for 1H FY2019 increased 59% and 90% year-on-year to S\$29.3 million and S\$19.1 million respectively, mainly supported by a combination of better operating performance and sizeable other gains.
- For a comparative review after adjusting for other gains/losses net of non-controlling interests, net profit for 2Q FY2019 and 1H FY2019 would have been about S\$1.4 million lower for both periods than 2Q FY2018 and 1H FY2018 or 17% and 11% lower year-on-year respectively.
- The Group's current order book backlog stands at a healthy S\$298 million.
- The Board declared an interim cash dividend per share of 1 cent.

**Singapore, 12 November 2018** – Mainboard-listed Boustead Singapore Limited (“Boustead” or the “Group”), a progressive global infrastructure-related engineering services, geo-spatial technology and healthcare group today announced its unaudited financial results for the second quarter and first half ended 30 September 2018 (“2Q FY2019” or “1H FY2019” respectively).

For 2Q FY2019, total revenue increased 13% year-on-year to S\$118.4 million. However, total profit and net profit decreased 10% and 3% year-on-year to S\$11.2 million and S\$6.9 million respectively, mainly due to higher overhead expenses and share of losses of associated companies and joint ventures, which outpaced the improvements in gross profit, other income and other losses.

For 1H FY2019, total revenue increased 15% year-on-year to S\$225.4 million. Total profit and net profit increased 59% and 90% year-on-year to S\$29.3 million and S\$19.1 million respectively, mainly supported by a combination of better operating performance and sizeable other gains from the completed sale of 25 Changi North Rise in 1Q FY2019 under the Group’s separately listed Real Estate Solutions Division (under Boustead Projects Limited).

For a comparative review after adjusting for other gains/losses net of non-controlling interests, net profit for 2Q FY2019 and 1H FY2019 would have been about S\$1.4 million lower for both periods than 2Q FY2018 and 1H FY2018 or 17% and 11% lower year-on-year respectively.

As the Group delivered steady core profitability and maintained a healthy cash position, the Board of Directors declared an interim cash dividend per share of 1 cent, matching the interim dividend of the previous year.

Mr Wong Fong Fui, Chairman and Group Chief Executive Officer of Boustead said, “We had a steady 1H FY2019 financial performance. There continues to be a gradual improvement in the outlook of the respective industries that we operate in. In addition, we will ride on our healthy financial position to weather the challenges posed by current global geo-political headwinds and evaluate any good opportunities that may appear.”

With the gradual improvement in the outlook of the global oil & gas industries, the Energy-Related Engineering Division’s revenue for 2Q FY2019 grew 3% year-on-year to S\$23.4 million. Client enquiries continued to be under more active review as compared to one year earlier.

Riding on a healthy order book backlog carried forward at the end of FY2018, the Real Estate Solutions Division (under Boustead Projects)’s revenue for 2Q FY2019 climbed 21% year-on-year to S\$60.6 million, with higher design-and-build revenue partially offset by lower leasing revenue.

The Geo-Spatial Technology Division continued to witness steady demand for its solutions across Australia and parts of South East Asia, although there was a minor revenue dip for 2Q FY2019 of 4% year-on-year to S\$30.5 million.

Making its maiden revenue contribution, the newly acquired Healthcare Division generated revenue for 2Q FY2019 of S\$3.7 million.

The Group’s overall gross profit for 2Q FY2019 increased 4% year-on-year to S\$42.5 million, though the overall gross margin was 36% compared to 39% in 2Q FY2018. Gross margin pressure continued to be felt across the Group.

Total PBT for 2Q FY2019 decreased 6% year-on-year to S\$15.7 million. Excluding currency exchange losses, the Energy-Related Engineering Division would have registered an operating profit for 2Q FY2019.

At the end of 1H FY2019, the Group's financial position remained healthy and also included the consolidated balance sheet of the newly acquired Healthcare Division.

The Group's net asset value per share strengthened to 66.2 cents at the end of 1H FY2019 from 63.5 cents at the end of FY2018, even after the final dividend payments for FY2018 by both Boustead Singapore and Boustead Projects, while the net cash position (i.e. net of all bank borrowings) remained healthy at S\$188.4 million at the end of 1H FY2019, translating to a net cash per share position of 38.2 cents. In addition, the Group held S\$66.0 million in investment securities at the end of 1H FY2019, of which about half of the amount is highly liquid.

The Group has been awarded about S\$127 million in contracts since the start of FY2019. The current order book backlog stands at a healthy S\$298 million (unrecognised project revenue remaining at the end of 2Q FY2019 plus the total value of new orders secured since then), of which S\$86 million is under the Energy-Related Engineering Division and S\$212 million is under the Real Estate Solutions Division.

The Group continues to see a gradual improvement in the outlook across the sectors in which the Group operates in, although the business environment remains challenging with global geo-political headwinds.

With a healthy balance sheet and net cash position, and wide range of financing options, the Group continues to be in an excellent position to capitalise on any good acquisition and investment opportunities that may arise.

Barring unforeseen circumstances and shifts in the global economic outlook, the Group believes that it can continue to deliver steady results in FY2019.
