Singapore, 13 August 2012 – Mainboard-listed Boustead Singapore Limited (“Boustead” or the “Group”), a progressive global infrastructure-related engineering services and geo-spatial technology group today announced its unaudited financial results for the first quarter ended 30 June 2012.

For 1Q FY2013, the Group achieved revenue of S\$113.3 million and net profit attributable to owners of the company of S\$12.2 million, an increase of 25% and 43% respectively.

All of the significant core operating divisions achieved overall growth and profitability.

The Real Estate Solutions Division was the growth booster among the Group’s engineering divisions, achieving revenue of S\$51.6 million and rising 83%. This was due to good progress on both new and existing projects.

The Energy-Related Engineering Division witnessed a decline in revenue to S\$24.6 million, a decrease of 11%. Revenue fell due to a delay in the commencement of a few major projects, although a pick up in revenue is expected in future quarters.

The Water & Wastewater Engineering Division registered revenue of S\$5.2 million, down by 39%. This was due to the completion of a major project by the end of the last financial year and a slowdown in securing new large projects.

Revenue from Geo-Spatial Technology rose to S\$31.9 million, up 21%. Robust demand for geo-spatial software and solutions was experienced across key markets in Australia and South East Asia.

Mr Wong Fong Fui, Chairman and Group Chief Executive Officer of Boustead said, “Assuming that the current global economic situation does not further deteriorate, we expect profitability to be sustained in FY2013. With net cash of S\$147 million, we are well placed to seek out further acquisitions. In the coming quarter, we also expect to complete the S\$55 million sale of our subsidiary holding the SDV Green Warehouse.”

Enquiry pipelines across all of the Group’s four core operating divisions remain at healthy levels. The Group’s order book backlog currently stands at S\$303 million (as at the end of 1Q FY2013 plus new orders since then).
